Intro To Music Theory For Guitar

There are basically 7 notes in music. If you start on an A note the notes are:
A, B, C, D, E, F, G

The next note is again an A but is an octave higher than the first note. Here are the notes on the guitar using the 5th string.

An easy way to remember the notes of the open strings of the guitar is to use the funny saying:
Starting from the 1st string (the highest string)
